Anmol Mishra

Software Developer Role

+919330069580 anmolmishra7545@gmail.com GitHub LinkedIn New Delhi, India

PROFESSIONAL SUMMARY

Software Development Engineer aspirant with a strong foundation in Java, Data Structures and Algorithms, Object-Oriented Programming (OOP), DBMS, and Computer Networks. Experienced in frontend development through a 6-month internship, with a focus on building responsive web interfaces and implementing features. Passionate about problem-solving and developing efficient, scalable software solutions.

WORK EXPERIENCE

Frontend developer Intern | Internship — Mar 2026 - Sep 2026
Mandupp — *On-site • Noida sector 63*

- Worked as a **Frontend Developer Intern** at Mandupp Pvt. Ltd. for 6 months, developing and maintaining web platform interfaces and building responsive user interfaces.
- Collaborated with design and development teams to implement new features and improve user experience.

Technologies / Skills Used : *React, Tailwind CSS, Node.js, Express, MongoDB*

PROJECTS

UPI Fraud Detection System | Github — May 2026 - Present
Developer

- Developed a **real-time fraud detection system** utilizing **Random Forest** and **XGBoost**.
- Reduced false positives by 18% through enhanced algorithms.
- Achieved **96%+** accuracy by applying **SMOTE** to address imbalanced transaction data.
- Created a **React** frontend and **Dockerized** the entire application for streamlined deployment.

Technologies / Tools Used : *Python, FastAPI, React, Scikit-learn, Docker*

Code Atlas AI — AI-Powered Codebase Q&A & Repository Intelligence Platform | Github — Apr 2026 - Present
Developer

- Built an **AI-powered platform** that analyzes GitHub repositories, enabling natural-language codebase search and Q&A.
- Implemented **semantic search** using embeddings and vector search to retrieve relevant code and provide context-aware responses.
- Developed REST APIs for repository ingestion, code analysis, search, and AI-powered code understanding.

Technologies / Tools Used : *Python, FastAPI, PostgreSQL, LLMs, Embeddings, Vector Search, REST APIs*

AI Plant Disease Detection — Jun 2024 - Present
Developer

- **Trained a CNN model** on the PlantVillage dataset, achieving **over 94% accuracy**.
- **Developed a Flask REST API** for instant crop disease prediction.
- **Created a Flask REST API** for real-time disease prediction with a response time of **less than 1 second**.

Technologies / Tools Used : *Python, TensorFlow, Flask, Docker*

SKILLS

Databases :	MongoDB, MySQL, SQLite
Frameworks & Libraries :	React.js, HTML5, CSS3, FastAPI, Flask, Node.js, Tailwind CSS, Numpy, Tensorflow
Programming Languages :	Java, Python, JavaScript, SQL
Tools & Platforms :	Git, GitHub, Docker, VS Code, Linux

EDUCATIONS

Inderprastha Enginnering College | Gaziabad — 2023 - 2027
Bachelor of Tecnology in Electronics & Communication Engineering

CERTIFICATIONS

- DSA with Java - Apna College
- Full Stack Development - Apna College
- HackerRank Software Engineer Intern Role Certification - HackerRank (Jul 2026)
